

## BRUSSELS Lounge Table

### BRUSSELS Lounge Table

To paraphrase a famous Belgian: This is not a lounge table.

A member of our ANZAC family, the BRUSSELS Lounge Table brings warmth, strength, and a delightful touch of contradiction to your lounge space.

BRUSSELS features an antique wooden door created in 1920s Belgium, complete with wrought-iron curves. Set under a tempered glass top, it is supported by twin bases made of recycled stone fused with concrete.

More compact than its Dining Table sibling, the BRUSSELS Lounge Table gives your guests an eye-catching invitation to take part in warm gatherings and stimulating discussions. Clear, toughened glass and dynamic lines of dry-sealed concrete carry the energy of the city; while the honey-coloured wood, and contemplative iron greys of the inset piece, evoke the warmth of the Belgian home from which it came.

BRUSSELS will give your guests an experience that will be talked about long after they have gathered around at the table. And, most conveniently for you and your guests: This is also a lounge table.

- Indoor or outdoor use
- Designed and handcrafted in Australia

**IP Australia Registered Design 201913520**
