

## BRUSSELS Dining Table

### BRUSSELS Dining Table

A member of our ANZAC family, the BRUSSELS Dining Table Table brings warmth, strength, and a delightful touch of contradiction to your dining space.

The BRUSSELS Dining Table features an antique wooden door created in 1920s Belgium, complete with wrought-iron curves. Set under a tempered glass top, it is supported by twin bases made of recycled stone fused with concrete.

Taller and more imposing than its Lounge Table sibling, the BRUSSELS Dining Table is an eye-catching invitation for your family and guests to gather around for an experience beyond simple nourishment. Clear, toughened glass and dynamic lines of dry-sealed concrete carry the energy of the city to inspire stimulating discussion; while honey-coloured wood, and contemplative iron greys of the inset piece, evoke the warmth of the authentic Belgian home from which it came.

More than just a gorgeous table, the BRUSSELS Dining Table will enrich your whole dining experience.

Trappist beer and pralines optional.

- Indoor or outdoor use
- Designed and handcrafted in Australia
- Seats up to 10 people

**IP Australia Registered Design 201913520**
